

## Welcome Back

Tuesday, 29 April 2008

Last Updated Wednesday, 25 June 2008

As part of the complete overhaul of everything ever I've switched over mediapathic from Wordpress to Joomla. I love wordpress, and I still highly recommend it for any blogging needs, but I want to move this site in more of a professional/portfolio direction. So, things will be a litte rough right now but feedback, as always, is welcome.
